SECTION N: INSTRUCTIONS FOR EMERGENCY TREATMENT AND CARE

Note: *In an emergency Facility and Attending Veterinarians are authorized to perform whatever life-saving or humane actions they feel, in their professional judgment, to be necessary.

N1. PRIMARY POINT OF CONTACT

<table>
<thead>
<tr>
<th>PI's Name: Karen Carleton</th>
</tr>
</thead>
<tbody>
<tr>
<td>Office Phone: 5-6929</td>
</tr>
<tr>
<td>Home Phone: 240-755-0048</td>
</tr>
<tr>
<td>Email: <a href="mailto:kcarleto@umd.edu">kcarleto@umd.edu</a></td>
</tr>
</tbody>
</table>

SECONDARY POINT OF CONTACT

<table>
<thead>
<tr>
<th>Point of Contact (POC) in Case of Emergency: Tom Kocher</th>
</tr>
</thead>
<tbody>
<tr>
<td>Office Phone: 5-4469</td>
</tr>
<tr>
<td>Home Phone: 240-755-0048</td>
</tr>
<tr>
<td>Email: <a href="mailto:tdk@umd.edu">tdk@umd.edu</a></td>
</tr>
</tbody>
</table>

N2. PREFERRED* TREATMENT PLAN

Describe potential or expected complications:
In case of power outage, the facility has a back up generator which should provide the needed air and water supply. Fish should be fine for 1-2 days so no treatment should be required. Loss of heat in the building would be cause for some concern but the large mass of water should slow any temperature loss. Keep doors closed as much as possible to prevent influx of cold air.

List of Procedures that may be performed on the Animal (ie. Surgery, implant, tumor, catheter)
None

Circumstances requiring contact:

Treatment (indicate appropriate response):
- ☐ Treatment as determined by veterinarian.
- ☒ Veterinary treatment with the following conditions:
  - ☒ Notify contact person (if possible) before initiating treatment.
  - ☐ Observe treatment guidelines described below when possible.
  - ☐ Observe treatment restrictions described below when possible.
  - ☐ Avoid contraindicated drugs specified below.

Description of treatment guidelines, restrictions and contraindicated drugs:

N3. PREFERRED EUTHANASIA PLAN

Criteria for Euthanasia (indicate appropriate response):
- ☐ At veterinary discretion based on animal condition, severe pain or distress.
Euthanasia conditions should consider the following conditions:

- Notify contact person (if possible) before performing euthanasia.
- Euthanasia method, agent, and route of administration should follow the protocol.

If euthanasia is performed or animals are found dead:

- Notify POC
- Refrigerate carcass
- Dispose of carcass
- Submit carcass for necropsy

N4. ADDITIONAL INFORMATION

Other instructions:
